AE7NETWORK

AE7 is an integrated network of Italian companies that combines technical, operational, and creative expertise to provide end-to-end solutions for international businesses and high-end brands. Through its four core divisions: **Business Integrator System (BIS)**, **New Printing Evolution (NPE)**, **Consulting Advanced (CA)**, and **Bandicoot (BND)**, AE7 designs and manages IT infrastructures, professional printing services, compliance programs, and advanced digital strategies.

Our approach blends engineering reliability, attention to detail, and a high-touch service: dedicated account managers, proactive 24/7 support, and scalable collaboration models. We operate in accordance with European regulations and standards and are accustomed to meeting the demands of international brands that require quality, confidentiality, and operational speed.

WHO WE ARE

AE7 Network was created to provide clients with a single partner that combines technological infrastructures, document management, regulatory consulting, and digital creativity. Each company within the network is specialized, yet they operate in an integrated way to reduce complexity and deliver fast, secure, and customized solutions.

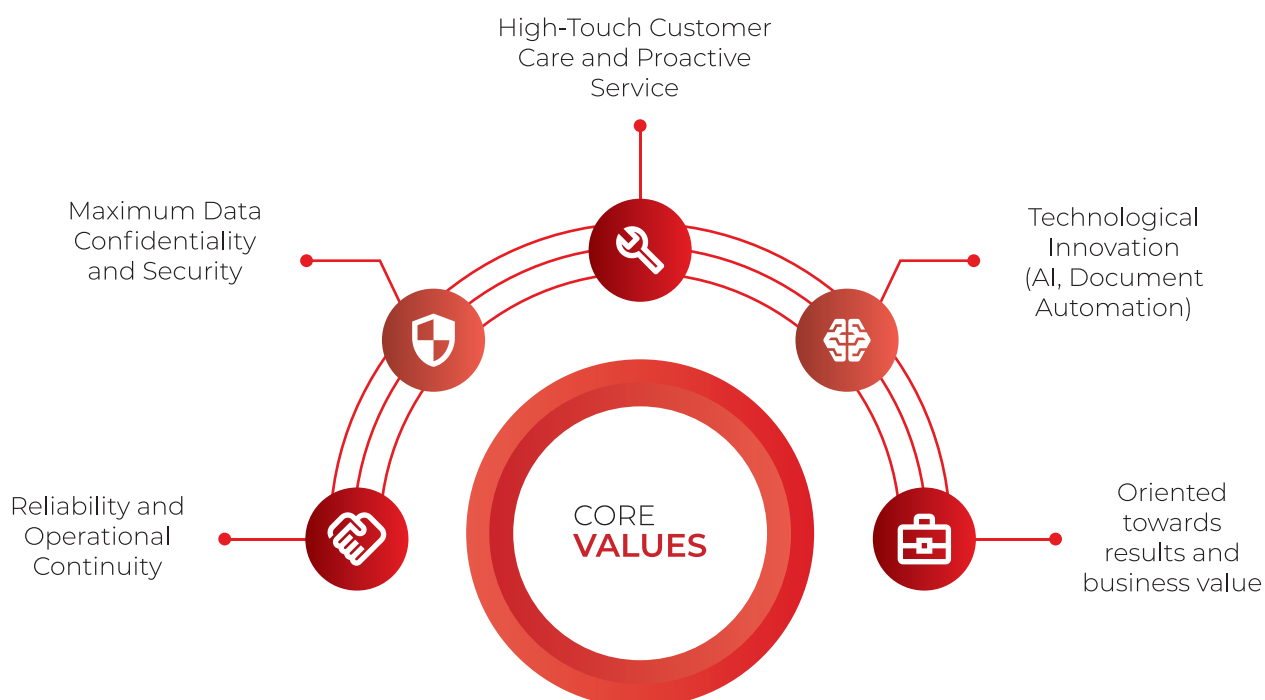

MISSION, VISION & **VALUES**

MISSION

Simplify and support the digital and operational transformation of complex companies by providing integrated, continuous services over time.

VISION

To become the trusted partner for companies pursuing technical excellence, data security, and impactful global communication.

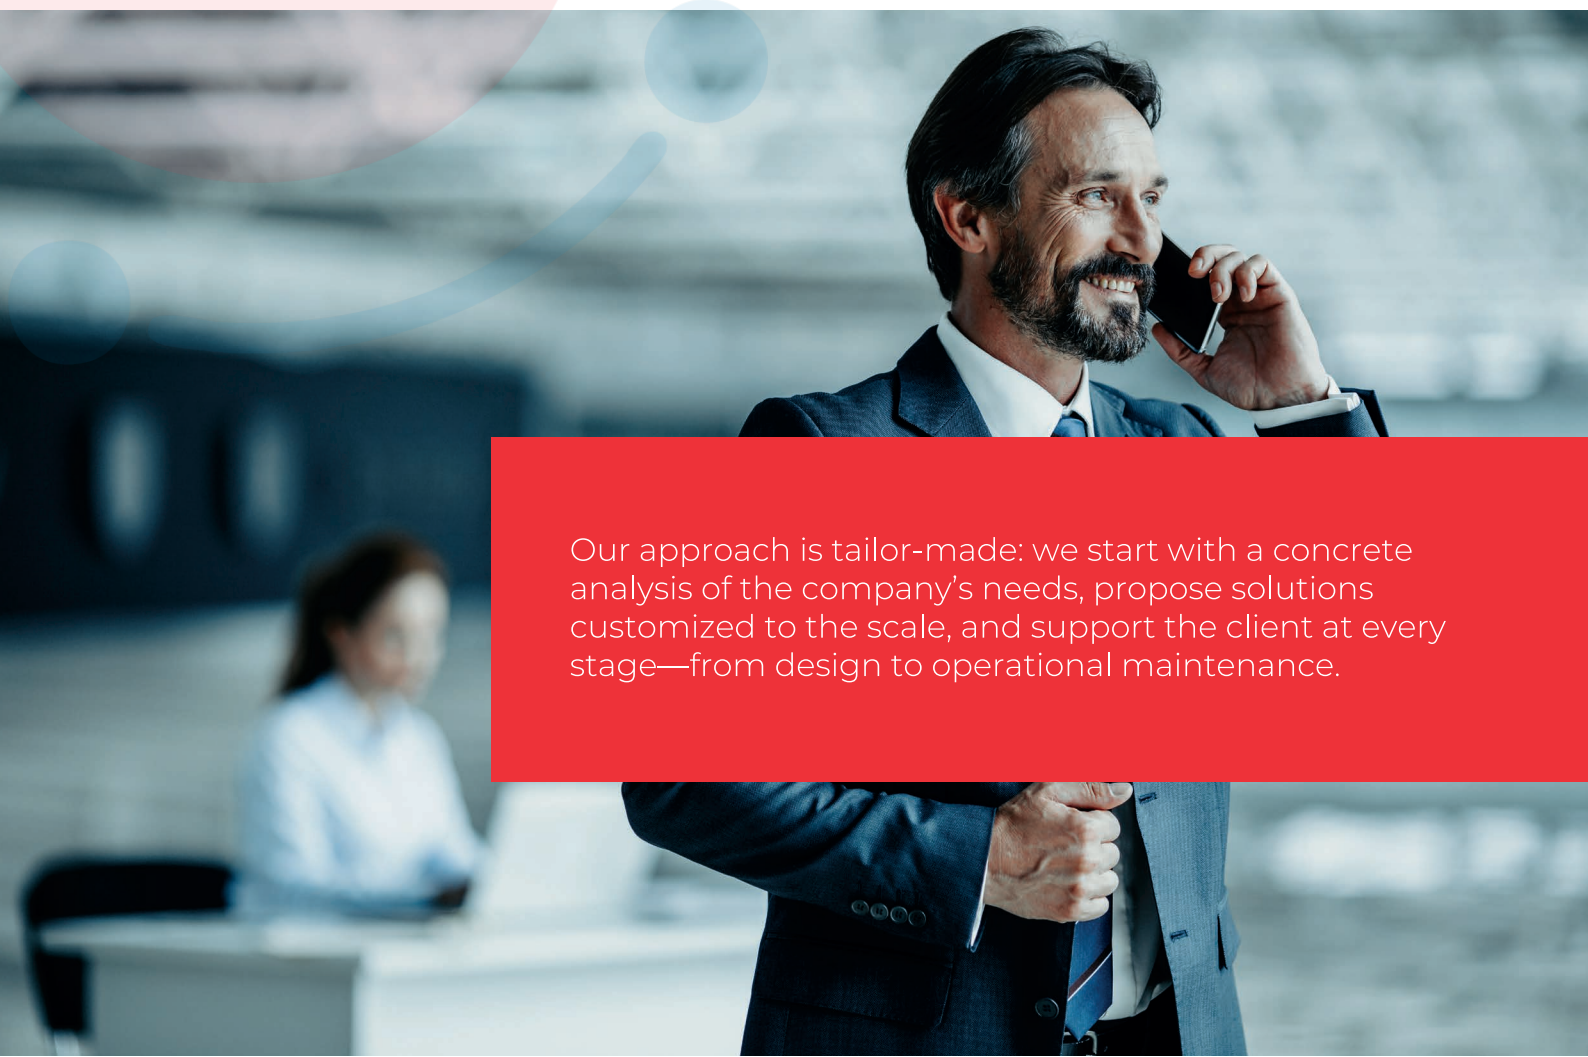

OUR DIVISIONS

BUSINESS INTEGRATOR SYSTEM

BIS represents the technological pillar of the AE7 network: designing, building, and managing robust, secure, and scalable IT infrastructures so that our clients can focus on their core business without worrying about technology.

With over 30 years of experience in the ICT sector, we have developed expertise ranging from connectivity to cybersecurity, from hardware to managed services, integrating AI and automation wherever needed.

Our approach is tailor-made: we start with a concrete analysis of the company's needs, propose solutions customized to the scale, and support the client at every stage—from design to operational maintenance.

KEY SERVICES

CONNECTIVITY & NETWORKS

High-performance wired and wireless infrastructures, secure VPNs, and distributed connections for mission-critical operations.

IT SERVICE & CYBER SECURITY

24/7 support, proactive monitoring, endpoint management, firewalls, antivirus, disaster recovery, and staff training.

ARTIFICIAL INTELLIGENCE & AUTOMATION

AI integration for repetitive workflows, chatbots, predictive analytics, and decision support.

HARDWARE & DEVICES

Supply, configuration, and maintenance of PCs, servers, peripherals, and network devices, with project-based spare parts management.

MOBILE & TELEPHONY SERVICES

VoIP solutions, cloud/on-premise PBXs, CRM integration, mobile device management, and support for national and international numbers.

DIFFERENTIATORS & GUARANTEES

- **A single point of contact for complete IT:** no fragmentation or complex coordination.
- **24/7 support and dedicated account managers:** for timely interventions and stable relationships.
- **Measurability and transparency:** dashboards, KPI reporting, clear and trackable SLAs.
- **Integrated security and compliance:** we operate according to recognized standards, with attention to GDPR and IT best practices.
- **Flexibility and scalability:** systems evolve with the business, without rigid contracts.

**NEW
PRINTING
EVOLUTION**

NEW PRINTING EVOLUTION

New Printing Evolution is not just a printing company: it's the division that turns document management into a strategic asset. We offer integrated solutions for printing, archiving, digitization, and intelligent document workflows.

For over 15 years, we have supported companies of all sizes (SMEs and enterprise organizations) in simplifying their document processes.

SERVICE AREAS

OPERATIONAL LEASING

Multifunction printers and professional devices available for lease, with maintenance, consumables, and replacements included.

ALL-IN COPY COST

All-inclusive copy rate (B/W or color) covering toner, support, maintenance, and remote monitoring.

ARCHIVING & DIGITIZATION

Digital solutions for storing, managing, and retrieving legally valid documents, fully integrated into company systems.

AI APPLIED TO DOCUMENTATION

Intelligent OCR, automatic classification, chatbots, and predictive algorithms to streamline and enhance document workflows.

PLOTTERS & LARGE FORMAT

Professional solutions for graphics, CAD/GIS, and high-precision photo printing.

ADDED VALUE

- **Total cost control:** no surprises, thanks to the “All-In” model.
- **Guaranteed operational continuity:** with remote monitoring and rapid response.
- **Tailored solutions:** selecting the most efficient devices and document workflows for each client.
- **Cutting-edge technology:** integration of AI, automation, and modern digital tools.
- **Proven experience and strong partnerships:** collaborating with brands like Toshiba, HP, Brother, and other leading players.

CONSULTING ADVANCED

Consulting Advanced is AE7's regulatory and strategic division: we support companies not only with legal compliance but also in building a system that combines compliance, operational governance, and innovation. We don't just offer theoretical consulting: we work long-term, integrating regulations, processes, and technology in a synergistic way.

AREAS OF EXPERTISE

HEALTH & WORKPLACE SAFETY

Audits, risk analyses, prevention plans, relations with authorities, and ongoing training.

TRAINING

Customized courses for executives, teams, and operators on regulatory, digital, and organizational topics.

CERTIFICATIONS & MANAGEMENT SYSTEMS

Support for ISO certifications (9001, 14001, 45001, etc.), including audits and continuous improvement.

PRIVACY & GDPR

Data governance, impact assessments, and compliance for digital and cloud environments.

COMPLIANCE & INNOVATION

Hybrid solutions combining regulations with new technologies (AI, automation, digital controls).

KEY STRENGTHS

- **Integrated perspectives:** combining regulations, organization, and technology into a single vision.
- **Continuity and presence:** we don't leave clients "after the audit" but support the company's ongoing evolution.
- **Tailored flexibility:** every intervention is adapted to the company's real context, not imposed from above.
- **Strategic approach:** every project starts from analysis and shared objectives.
- **Reduced legal risk:** fewer regulatory surprises and lower future exposure.

BANDICOOT

Bandicoot is the creative and digital division of the AE7 network, specialized in turning complex business strategies into coherent, high-impact visual experiences. We offer an integrated approach that combines design, digital communication, and web technologies to build distinctive brand identities and effective digital campaigns. Our work ranges from designing websites and e-commerce platforms to digital graphics and promotional materials, as well as developing omnichannel marketing strategies.

```
document.getElementById(div).innerHTML = errEmail;  
else if (i==2)  
{  
  var atpos=inputs[i].indexOf("@");  
  var dotpos=inputs[i].lastIndexOf(".");  
  if (atpos<1 || dotpos<atpos+2 || dotpos>inputs[i].length-1 || inputs[i].indexOf(".")<1)  
    document.getElementById('errEmail').innerHTML = "Formato de correo electrónico incorrecto";  
else  
  document.getElementById('errEmail').innerHTML = "Formato de correo electrónico incorrecto";  
}  
if (i==5)
```

Every project starts with an analysis of the client's needs, focusing on aesthetic quality, measurable performance, and message consistency across all digital touchpoints.

MAIN SERVICES

WEB DEVELOPMENT

Showcase websites, WooCommerce e-commerce, web apps, and custom integrations with company systems.

GRAPHIC DESIGN & BRAND IDENTITY

Logos, corporate identity, digital graphics, and promotional materials for both print and digital media.

DIGITAL MARKETING

SEO/SEM strategies, paid campaigns, content marketing, social media management, and email marketing.

WEB HOSTING & INFRASTRUCTURE

Managed hosting, maintenance, backups, security, and performance for mission-critical websites.

ONGOING OPERATIONAL SUPPORT

Evolutionary maintenance, updates, testing, and proactive support, so that clients are never "left alone" after delivery.

KEY STRENGTHS

- **Long-term relationships:** we focus on ongoing collaborations, not one-off projects.
- **Integrated network approach:** we connect creativity and technology with BIS, NPE, and CA for coherent, cross-division solutions.
- **Tailored scalability:** we design websites and campaigns built to grow with the brand.
- **Performance and measurability:** constant metrics, analysis, and reporting to track campaign effectiveness.
- **Creative flexibility:** we interpret the client's positioning with aesthetics and storytelling, not just standard templates.

CONTACTS & **NEXT STEPS**

At AE7, we believe every collaboration starts with a dialogue. That's why we offer our clients two paths: the option to share a brief and receive a targeted proposal, or to participate in a one-day Discovery Workshop, during which we analyze critical points and improvement opportunities to jointly develop a concrete pilot plan.

Our dedicated websites: **BIS**, **NPE**, **Consulting Advanced**, and **Bandicoot**, allow you to explore the specific expertise of each division, showing how the AE7 network can become a single, integrated partner for your international growth.
